PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience developing full-stack web applications using Laravel, React, PHP, Java, and MySQL. Passionate about building reliable, user-focused software and continuously improving through practical projects, collaborative development, and modern engineering practices. Currently awaiting graduation with a Bachelor's degree in Computer Science.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python, Java, SQL

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Laravel, Node.js, Flask

Databases: MySQL

Tools: Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern

Aug 2025 – Sept 2025

RADMedics Corporation

Mandaluyong City

- Refactored legacy Laravel modules into reusable components using PHP and Tailwind CSS while maintaining existing backend functionality.
- Fixed cross-browser UI issues and improved page performance across desktop and mobile devices.
- Collaborated with the development team through daily standups, code reviews, and Git-based deployment workflows.

Backend Web Development Team Lead

Sept 2024 – July 2025

PUP Manila Microsoft Student Community

Sta. Mesa, Manila

- Led a team of 20 members by assigning tasks, monitoring progress, and organizing backend development workshops.
- Reviewed student projects and provided feedback on code quality, debugging practices, and backend implementation.
- Developed training materials on database design, REST APIs, and backend development fundamentals.

TECHNICAL & ACADEMIC PROJECTS

Extended Firefly Algorithm (EFA) for Flood Scenario Deployment

Dec 2025

Research Project Lead

Academic Research

- Built a Java-based simulation tool implementing the Extended Firefly Algorithm to optimize emergency resource deployment across 30 flood-response scenarios.
- Improved optimization performance by 4.08% through hyperparameter tuning and algorithm refinement.
- Reduced memory usage by 48.88% compared to the baseline through algorithm and data structure optimizations.

PUP Commeownity — Campus Resource Management Platform

June 2025

Full Stack Developer

Web Application

- Developed a Laravel-based campus resource management platform using MySQL and Tailwind CSS, supporting event registration, profile management, and health record tracking.
- Designed relational database schemas, implemented backend business logic, and developed responsive user interfaces for administrators and students.

EDUCATIONAL BACKGROUND

Polytechnic University of the Philippines

Oct 2022 — Sept 2026 (Expected)

Bachelor of Science in Computer Science

Sta. Mesa, Manila, Philippines

- Achieved President’s Lister honors across all semesters, maintaining a GWA of 1.00–1.50.
- Relevant coursework includes information management, software engineering, web development, Introduction to Artificial Intelligence, and Database Administration.

PROFESSIONAL CERTIFICATIONS & TRAINING

- **TESDA Programming (Java) NC III** – Joysis Tech Voc. Inc. | **240 hours** | *June – August 2026*
- **Google AI Professional Certification** – Coursera | *July 2026*
- **CS50’s Introduction to Computer Science** – Harvard University / edX | *August 2024*
- **Networking Essentials** – Cisco Networking Academy | *June 2024*
